# What is the Internet?

James Abela

Connect These?

Connect These (Hints)

- Satellite delivering Internet data
- Diving team laying underwater cable

- Google Data Centre

- Clinton's cat. The first presidential pet to have a Website
- Lady using WIFI

Objectives

Sunday 10 January 2010

- To know what the key parts of the net are

- To identify the benefits of having internet connectivity

- To be able to recommend appropriate networking systems

This is because: It is essential to understand the net to understand the underlying needs of your clients

Internet began in 1969

The Internet has grown

"When I took office, only high energy physicists had ever heard of what is called the World Wide Web... Now even my cat has it's own page."
Bill Clinton, 1996

Describing the Internet as the Network of Networks is like calling the Space Shuttle a thing that flies.
John Lester

What Can we do with the net?

Success Criteria

- Create a Mindmap with at least 15 branches on it
- Include technologies. Not just the web
- Include what it can be used for e.g. video conferencing

How does this school connect to the net?

1. What software do we use
2. What hardware do we use
3. What are the key steps to connecting to the net
4. Who provides our connection.
5. What do they provide?

Objectives achieved?

Sunday 10 January 2010

- To know what the key parts of the net are

- To identify the benefits of having internet connectivity

- To be able to recommend appropriate networking systems
