

Webmerise

Presents:

www.futureenergies.com

The World's first Environmental Internet Portal

On the Portal will be the world's community of leading eco-companies and Lobbyist groups including:

- ▶ Environmental Architects - Architects who have achieved the ultimate harmony between energy efficiency and aesthetics
- ▶ Environmental Review Specialists - Consultants who assess Environmental and energy implications of a company's performance and suggest improvements.
- ▶ Energy Saving Specialists
- ▶ Alternative Energy Providers
- ▶ Climatic Change Organisations

By presenting your company on the Portal, you will be able to show your eco-credentials to the world. An effective route for getting your eco messages across to lobby groups.

The complete reference source for complete environmental reporting legislation.

If you are a company with Environmental Products to sell, then this portal will increase your exposure to consumers and the press.

Prove Your Eco-Credentials and Join us!
